### **\*JOB DESCRIPTION**

Major financial services organization with a strong presence in the Atlanta area is looking for a technology audit professional with strong leadership skills, change management ability, and excellent communication skills. The Manager will lead a risk-based audit program aligned with business priorities designed to influence Management's capacity to manage risk and achieve business objectives.

- The IT Audit Manager manages staff, helps develop the annual plan, works with stakeholders and sometimes acts as an individual contributor in the planning and execution of audit objectives.
- The Manager will be accountable for the timely execution and delivery of high-quality risk-based audits for technology infrastructure, business application systems and significant projects.
- View service as a priority, avoid surprises and foster the right relationships with Clients.
- Partner with Clients to deliver effective audit services and act as a valued, independent advisor.
- Manage/lead a staff of 2 on location in Atlanta.
- Participate in the CAS Risk Assessment Process and contribute to the Annual Audit Plan.
- Execute concurrent projects while consistently meeting deadlines with minimal supervision.
- Manage staff, supervise work and act as an individual contributor as assigned.
- Identify risk-based issues, apply creative solutions and deliver commercially-considered opinions to promote effective risk management.
- Set expectations, evaluate performance and coach individuals.

### **\*JOB REQUIREMENTS**

Leadership experience in an IT Audit capacity. Critical is the ability to foster effective relationships, lead people and engagements in an independent and professional manner.
